

## Tompkins Industries Expands into Canada, Merges with Can-Am Hydraulic

Olathe, Kansas. (January 24, 2011) - Tompkins Industries, a leading manufacturer and master distributor of hydraulic adapters, fluid power products and accessories, announces the finalization of a merger with Can-Am Hydraulic Products, Ltd. of Mississauga, Ontario Canada.

Tompkins Canada, as the new division will be known, is located in Mississauga, Ontario Canada. Sean McGuinness, former President of Can-Am Hydraulic, will be General Manager of Tompkins Canada.

"I am really excited," notes McGuinness, "This merger means we'll be able to provide our customers with many new products such as ball valves and test point fittings." As Tompkins Canada, we'll also be expanding our line of hydraulic adapters and other tube fittings and accessories. "We are committed to having the inventory you need, when you need it here in Canada."

"Knowing Can-Am Hydraulic's dedication to quality, we felt this was the perfect scenario to mutually benefit both Tompkins and Can-Am Hydraulic's customers." said Tompkins National Sales Manager Bill Hartman.

"As an industry leader, we're excited to be able to bring our knowledge and expertise to the Canadian market," said Hartman. "Our promise to our customers of providing the highest quality parts and service has always been the same, and remains the same, no matter where we do business." Tompkins guarantees same-day shipping on in-stock items.

Tompkins Canada will carry a full-range of hydraulic adapters and fluid power products including: flanges, quick-disconnect couplings, test points, gauges, ball-valves (full-sized and mini), drain and needle valves. Hydraulic fittings are available in steel, brass, and stainless steel, in SAE and metric sizes, for working pressures to 10,000 psi.

Additionally, Tompkins' support resources are also available now to the Tompkins Canada customer: free 2D and 3D CAD models for hundreds of hydraulic adapters; industry service training videos on proper hydraulic fitting assembly techniques; and downloadable resource guides including our Hydraulic Adapter Quick Reference Guide.

### About Tompkins Industries, Inc.

Tompkins Industries is an ISO 9001 certified manufacturer and master distributor of hydraulic adapters, tube fittings and accessories including: flanges, quick-disconnect couplings, test points, gauges, ball-valves (full-sized and mini), drain and needle valves.
